11. What do you need to take with on the day?

- A set of Black and White photos. These are not used on your licence, they are merely for the documentation and a temporary licence.
- Cash to pay. Some centres accept cards. Check the current price of a licence and the price of a temporary licence as well.
- An eye test from an optician. This is optional as they do it at the licence centre as well. It just saves a few minutes at the test centre.
- A pen to complete the documents.
